1] ABOUT EQUITY TRUSTEES LIMITED

THE RESPONSIBLE ENTITY

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298, AFSL 240975 a subsidiary of EOT Holdings Limited ABN 22 607 797 615, a public company listed on the Australian Securities Exchange (ASX: EOT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has delegated the investment management functions to PAN-Tribal Asset Management Pty Ltd which may appoint a Sub-Investment Manager to make investment decisions in relation to the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

THE INVESTMENT MANAGER

PAN-Tribal Asset Management Pty Ltd

The Investment Manager is PAN-Tribal Asset Management Pty Ltd ("PAN-Tribal"). The philosophy underpinning PAN-Tribal is to create wealth for investors by sourcing the best financial products from the best investment managers worldwide, and back this with first-rate service and support.

PAN-Tribal brings together high calibre investment managers that offer quality products, which stand out from those already available to Australian investors. A client-centric focus is at the heart of the business – this flows from PAN-Tribal through to the investment managers it partners with. As well as meeting stringent quality criteria, these investment managers must have values consistent with those embraced by PAN-Tribal.

PAN-Tribal is wholly owned by its founders and a small group of private investors – there is no institutional ownership in PAN-Tribal. As well as being a shareholder in the business, the founders are investors in PAN-Tribal's products; therefore clients can expect alignment between their objectives and PAN-Tribal's. This alignment of interests extends beyond PAN-Tribal to Davis, the underlying investment manager of the PAN-Tribal Global Equity Fund.

PAN-Tribal is focused on delivering consistently solid investment performance as it continually searches across asset classes and investment strategies to find unique products from the very best asset managers around the globe.

THE SUB-INVESTMENT MANAGER

Davis Selected Advisers, L.P.

Davis Selected Advisers L.P. ("Davis") is the Sub-Investment Manager of the Fund. As at 30 September 2022 Davis managed in excess of US\$18 billion on behalf of its clients. Davis recognises that its success is determined by its ability to build and preserve long term wealth. Founded in 1969, the firm is employee owned. This independence has allowed Davis to remain steadfastly dedicated to the same patient, long-term investment discipline over the past 53 years.

A strong alignment of interests between their investment managers and clients is a central tenet of Davis's philosophy. As at 30 September 2022, the Davis family and Foundation, Davis Advisors, and employees have more than US\$2 billion invested in similarly managed accounts and strategies. In addition, shares in select funds managed by Davis comprise a significant proportion of each investment manager's remuneration.

Davis is a research-driven organisation that focuses solely on investment strategies which they believe can add value for investors. All equity portfolios are managed according to the same investment philosophy of buying durable businesses at value prices and holding them for the long term.

The long-term, high conviction investment approach followed by Davis is applied across all portfolios they manage. With its long term perspective, Davis devotes significant time and resources upfront to rigorously study businesses – sometimes over the course of several years – until they build sufficient conviction to invest their clients' and their own capital.

2] HOW THE PAN-TRIBAL GLOBAL EQUITY FUND WORKS

The Fund is a registered managed investment scheme. The Fund is governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however it does not give investors an interest in any particular asset of the Fund. All amounts are in Australian dollars.

Applying for units

You acquire units in the Fund by completing the application form ("Application Form") for this Fund and sending the Application Form together with the investment amount and supporting documents to State Street Australia Limited ("State Street"). The minimum initial investment amount for the Fund is \$25,000 (unless otherwise determined by the Responsible Entity).

The price at which units are acquired ("Application Price") is determined in accordance with the Constitution. The Application Price on a Business Day (as defined in the Reference Guide) is, in general terms, equal to the Net Asset Value ("NAV"), divided by the number of units on issue, taking into consideration any applicable Buy/Sell Spread.

The Application Price will vary as the market value of assets in the Fund rises or falls. No interest is earned on application monies. Indirect Investors should review their Investor Directed Portfolio Services ("IDPS") guide ("IDPS Guide") for information on how to invest with that service.

Making additional investments

You can make additional investments into the Fund at any time by sending your additional investment amount together with a completed Application Form to State Street. The minimum additional investment into the Fund is \$10,000 (unless otherwise determined by the Responsible Entity).

Distributions

The Fund usually distributes income annually at the end of June. Distributions are calculated on the last day of each distribution period end (30 June), and are normally paid to investors within 14 Business Days of the period end. Equity Trustees may amend the distribution frequency without notice.

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period and the distributable income of the Fund.

In some circumstances, where an investor makes a large withdrawal request (e.g. 5% or more of the units on issue at the start of the relevant distribution period), their withdrawal proceeds may be taken to include a component of distributable income.

Investors can have their distribution payments reinvested or paid to a nominated bank account. Investors who do not indicate a preference will have their distribution payments automatically reinvested and issued additional units in the Fund.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

Access to your money

Investors in the Fund can withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

**State Street Australia Limited, Unit Registry
Level 14, 420 George Street, Sydney, New South Wales, 2000.
Or sending it by fax to +612 9323 6411**

The minimum withdrawal amount is \$10,000, unless otherwise determined by the Responsible Entity. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

However, the Constitution allows Equity Trustees to make payment up to 21 days after acceptance of a withdrawal request. This period may be extended by a further 30 days if Equity Trustees considers that it is in the best interests of the Fund's investors to do so or a longer period if it is not possible for Equity Trustees to make the payment due to one or more circumstances outside its control.

The price at which units are withdrawn ("Withdrawal Price") is determined in

accordance with the Constitution. The Withdrawal Price on a Business Day is, in general terms, equal to the NAV, divided by the number of units on issue, taking into consideration any applicable Buy/Sell Spread. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully withdraw your investment if your investment balance in the Fund is below the minimum balance or will fall below the minimum balance as a result of accepting your withdrawal request. At the date of this PDS, the minimum balance is \$20,000. Equity Trustees is not obliged to accept a withdrawal request and may deny a withdrawal request where, for example, accepting the request would cause the Fund to cease to be liquid or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such an offer.

If you have invested indirectly in the Fund through an IDPS, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available to investors free of charge on request to Equity Trustees.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents can also be obtained from ASIC's website.

3] BENEFITS OF INVESTING IN THE PAN-TRIBAL GLOBAL EQUITY FUND

One of the key features is PAN-Tribal's appointment of Davis to manage the PAN-Tribal Global Equity Fund, which gives Australian investors access to the signature Davis Investment Discipline, a time-tested strategy focused on identifying attractive businesses with sustainable competitive advantage and experienced management, selling at a discount to their true value.

In addition to the benefit of the Davis Investment Discipline, other key benefits of investing in the PAN-Tribal Global Equity Fund include:

- **Exposure to a portfolio** of well researched, durable businesses from around the globe, offering attractive capital growth potential

- **Flexible, opportunistic approach** – Davis believes a bottom up approach that does not mirror the benchmark index is the key to long-term outperformance
- **Access to global investment opportunities** that individual investors often cannot achieve
- **Low average stock turnover** makes the fund more tax effective than high turnover portfolios
- **Strong focus on risk management** at both the security and portfolio level
- **Investing side-by-side** – employees of both Davis and PAN-Tribal invest in the Fund (or an equivalent fund managed to the same underlying global equity strategy). Portfolio managers are compensated with shares of the equivalent fund, based on long-term performance versus benchmark; they have a vested interest in the underlying strategy performing well.
- **A robust governance** and compliance structure with a trusted Responsible Entity and Custodian, and legal rights under the constitution of the Fund.

4] RISKS OF MANAGED INVESTMENT SCHEMES

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy.

Assets with the highest long-term returns may also carry the highest level of short-term risk. The information below highlights the significant risks you should consider when deciding whether to invest in the Fund. You may want to consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

We do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may also change in the future.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Active management

Typically, the Investment Manager or Sub-Investment Manager actively seeks attractive securities which meet its investment criteria to invest in, rather than investing in a predetermined basket of securities that reflects an index. Consequently, as the Fund does not fully replicate the securities by reference to which the benchmark index is calculated, the Fund may underperform relative to its stated benchmark.

Concentration risk

Concentration of investments in the Fund (between individual investments and types of investments) will reduce the potential benefit of diversification. The potential benefit of diversification is to reduce volatility of investments.

Currency risk

The Fund may invest in securities denominated in currencies other than Australian dollars. If these currencies change in value relative to the Australian dollar, the value of the investment can change. The Investment Manager or Sub-Investment Manager will not typically hedge currency risk to Australian dollars.

Emerging markets risk

There is a risk associated with investing in securities issued by companies domiciled in countries with less developed political, economic and financial systems. Emerging markets are more likely to experience greater volatility than markets in developed countries. Securities traded in emerging markets also have more limited liquidity when compared to securities traded in developed countries. This means that those securities may fall more sharply and rapidly than securities traded in developed countries. Further risks include differences in auditing and financial accounting standards, less regulated markets, less developed corporate laws and political risk.

Fund risk

The Fund could terminate, the fees and expenses could change, the Investment Manager, Sub-Investment Manager or Responsible Entity could be replaced and the Investment Manager or Sub-Investment Manager's investment professionals could change. There is also a risk that investing in the Fund may give different results than investing directly in the underlying assets of the Fund themselves because of income or capital gains accrued in the Fund and the consequences of investment and withdrawal by other investors.

Individual investment risk

Individual investments of the Fund, for example, securities on a stock exchange, can and do fall in value for many reasons such as changes in a company's internal operations or management, or in its business environment. The Investment Manager or Sub-Investment Manager aims to reduce these risks with careful analysis of research from many sources and by talking to the management of relevant companies who are responsible for changes which may impact on the Fund's investments.

Liquidity risk

There may be times when securities may not be readily saleable (for example a securities exchange imposed limit on price fluctuations on a particular day in both falling and rising market conditions) and this may impact the investment and markets to which the Fund has exposure.

If there is an interruption to regular trading in a market generally, or for a particular investment to which the Fund has exposure, there may be delays in processing withdrawal requests. Neither the Responsible Entity, the Investment Manager nor the Sub-Investment Manager guarantees the liquidity of the Fund's investments or liquidity of investments in the Fund.

Market risk

The value of your investment and market price of securities owned by the Fund may be affected by changes in legal and economic policy, political events, technology failure, economic cycles, investor sentiment and social climate, which can all directly or indirectly create an environment that may influence (negatively or positively) the value of your investments in the Fund. Neither past nor current performance should be taken as an indication or guarantee of the Fund's future performance.

General risks

The market price of investments may go up or down, sometimes rapidly or unpredictably. Assets may decline in value due to factors affecting markets generally or particular industries represented in the markets. The value of an investment may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, supply and demand for particular securities or instruments, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labour shortages or increased production costs and competitive conditions within an industry. During a general market downturn, multiple asset classes may decline in value simultaneously.

Further, changes in tax, legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of the investments of the Fund.

Legal and regulatory risk

Legal risk is the risk of losses to the Fund occurring as a result of legal issues, principally loss due to the non-enforcement of a contract. This non-enforcement may arise from insufficient documentation, insufficient capacity or authority of a counterparty, uncertainty in relation to the interpretation of the law or unenforceability in bankruptcy or insolvency.

There is also risk that laws, including taxation laws, might change, adversely affecting the ability of the Fund to achieve its objective and/or adversely affecting the Fund's performance.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager, Fund Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5] HOW WE INVEST YOUR MONEY

Warning: Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund's investment objective is long-term growth of capital. The Fund seeks to outperform the MSCI ACWI (in AUD), over the medium to long-term, by investing in companies with attractive long-term growth potential in both developed and developing markets.

Benchmark

MSCI ACWI (All Country World Index) in AUD

Minimum suggested timeframe

The minimum suggested investment time frame for the Fund is 5 years.

Risk level

High. There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term. This grading is not intended to be a guarantee of any actual level of risk or an indication of likely returns.

Investor suitability

The Fund may be suitable for investors seeking long term capital growth with an investment horizon of 5-7 years.

Investment style and approach

PAN-Tribal has appointed Davis to act as the underlying sub-investment manager of the Fund's portfolio. Davis is an active, benchmark agnostic manager. The PAN-Tribal Global Equity Fund will be managed using the 'Davis Investment Discipline'.

The Davis Investment Discipline involves: (a) undertaking extensive research to identify businesses that possess characteristics that Davis believes foster the creation of long-term value. Such characteristics include proven management, a durable franchise and business model, sustainable competitive advantages, balance sheet strength and the diversity and sustainability of earnings power; (b) regular company visits are made to gain insights into the relative value of each business. Such research, however rigorous, involves predictions and forecasts that are inherently uncertain; (c) fundamental bottom-up stock selection as Davis believes that the ability to evaluate management is critical; and (d) after determining which companies they believe the Fund should own, determining the intrinsic value of those companies' equity securities. The intrinsic valuation of the company is based upon the fundamental analysis of cash flow, assets and liabilities, and other criteria that Davis deems to be material on a company by company basis.

The aim of the Davis Investment Discipline is to: (a) invest in such businesses when they are trading at a discount to their intrinsic worth; (b) invest in such companies for the long term (ideally five years or longer, although this goal may not be met); and (c) selling a company's equity securities if the securities' market price exceeds their estimates of intrinsic value, if the ratio of the risks and rewards of continuing to own the company's equity securities is no longer attractive, or to raise cash to purchase a more attractive investment opportunity, to satisfy net withdrawals, or other purposes.

The Fund will not use derivatives (with the exception of currency forward contracts for trade settlement purposes only).

Asset allocation

The assets of the Fund will generally be invested in accordance with the following guidelines: The Fund will principally invest in common stocks (including indirect holdings of common stock through depositary receipts) issued by foreign companies (90-100% of the Fund), including countries with developed or emerging markets, and the remainder of the Fund in cash (0% -10% of the Fund). The Fund may invest in large, medium, or small companies without regard to market capitalisation. The Fund will invest significantly (at least 40% of total assets under normal market conditions and at least 30% of total assets if market conditions are not deemed favourable) in issuers: (i) organised or located outside of the U.S.; (ii) whose primary trading market is located outside the U.S.; or (iii) doing a substantial amount of business outside the U.S., which the Fund considers to be a company that derives at least 50% of its revenue from business outside the U.S. or has at least 50% of its assets outside the U.S. Under normal market conditions the Fund will invest in issuers representing at least three different countries.

Labour, environmental, social and ethical considerations

Labour standards, environmental, social and ethical considerations will only be taken into account to the extent that they are not anticipated to negatively impact investment returns. Neither Equity Trustees, the Investment Manager nor the Sub-Investment Manager have a formal policy for considering how these considerations impact an investment decision.

Fund performance

Up to date information on the performance of the Fund will be available by calling the Responsible Entity on +61 3 8623 5000. A free of charge paper copy of the information will also be available on request. Past performance is not necessarily a guide to future performance.

Changing the Investment Strategy

The investment strategy and asset allocation parameters may be changed from time to time. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

6] FEES AND COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100 000 to \$80 000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs may be paid directly from your investment or deducted from investment returns. For information on how managed investment schemes are taxed please see Section 7 of this PDS.

ADDITIONAL EXPLANATION OF FEES AND COSTS

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.20% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees

component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's investment strategy (if any). The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.15% upon entry and 0.15% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$37.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.11% p.a. of the NAV of the Fund, which is based on the relevant costs incurred during the financial year ended 30 June 2022. However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the Gross Asset Value ("GAV") of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients. Please contact the Responsible Entity on +61 3 8623 5000 or your financial adviser for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – PAN-Tribal Global Equity Fund

Balance of \$50,000 with a contribution of \$5,000 during the year		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.20% p.a.	And , for every \$50,000 you have in the PAN-Tribal Global Equity Fund you will be charged or have deducted from your investment \$600 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of PAN-Tribal Global Equity Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$600* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Additional Information on Fees and Costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7] HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

8] HOW TO APPLY

To invest please complete the Application Form accompanying this PDS and either;

- attach your cheque payable to 'STATE STREET AUSTRALIA LTD ACF EQUITY TRUSTEES LTD ARF PAN-T',

Please note that cash cannot be accepted.

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over. Investors investing through an IDPS should use the application form provided by their IDPS Operator.

Cooling-off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product. Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in a fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Once provided, your TFN will be applied automatically to any future investments in the Fund where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
